SUMMER 2009 REU

Research Experience for Undergraduates in Computer Science

Sponsored by
The National Center for Data Mining at UIC
&
The National Science Foundation

The National Center for Data Mining at UIC is hosting a Research Experience for Undergraduates (REU). Students will work on research projects using clouds for high performance computing, for applications in genomics and systems biology.

Program Leader: **Dr. Robert L. Grossman**

Dates: **June 5 to August 7, 2009**
(Shorter periods may be available)

Applications received before **May 10, 2009** will receive first consideration.

Application form available at: www.ncdm.uic.edu

Eligibility and Prerequisites: Open to undergraduate students who are U.S. citizens or permanent residents.
Computer science prerequisites: Networking, Operating Systems, C++, Python.

Support: Participants will receive a \$250 a week stipend and a travel subsidy of up to \$400. Campus recreation facilities will be accessible to students in the program. Dormitory housing may be available through the program.

Location: University of Illinois at Chicago in Chicago, Illinois
